

# MXS 25EC

## PROFESSIONAL BATTERY CHARGER AND SUPPORT UNIT

The MXS 25EC is a fully automatic 8 step smart charger and battery support unit that delivers 25A to 12V batteries from 40-500Ah.

Designed for professional use, the MXS 25EC includes a wide range of features, including an automatic diagnostic function that tests whether a battery is able to take and hold a charge and a supply function that allows it to be used as a power supply to support the battery during diagnostic work.

With a built in temperature sensor, the MXS 25EC is able to compensate for conditions and provide optimum charging whatever the weather. It is delivered with 6 metre extended cables, a built-in hanging bracket and a 2 year warranty.
